Professional Summary

Data Analyst with experience in developing solutions and analyzing data. Expertise in developing data-driven reports and visualizations to enhance the understanding and operational efficiency. Known for having a strong analytical mindset, outstanding problem-solving skills, and the ability to collaborate in fast-paced environments.

Skills

SQL	Microsoft Excel
Python	Data Clean up
C Programming	Basic ML Concepts
HTML & CSS	Problem-solving
Power BI	Data Visualization

Experience

Associate Process Leader | [Brane Services Pvt Ltd.](#) | *Hyderabad, Telangana.* 07/2023 – Present.

- Used **Excel** and **Excel formulae** extensively for data cleaning, manipulation, and analysis tasks, including advanced functions, and pivot tables to improve efficiency.
- Assisted cross-functional teams in gathering requirements and utilizing **Low-code** to provide effective solutions.
- Developed client-centric use cases and business flows, leveraging High-Level designs and client-provided datasets to engineer tailored business datasets on the platform.
- Collaborated with the development team to address platform limitations, ensuring comprehensive solutions and bridging gaps for unachievable use cases.
- Wrote **SQL** queries to extract, transform, and load data from various sources, ensuring data integrity and accuracy.
- Migrated Excel reports onto our servers, making them accessible for clients' day-to-day reporting needs. This transition facilitated easier access to critical information, empowering our clients to make timely decisions based on up-to-date data.
- Managed extensive datasets, synthesizing insights from clients, employees, and the market to drive product development and streamline intricate needs.
- Actively learning and passionate about Machine Learning and Data Analysis, seeking opportunities to develop skills further and contribute to innovative projects in these domains.

Education

CVR College of Engineering. *Hyderabad, Telangana, India.* 2019 – 2023.

- Civil Engineering. **GPA:** - 8.9/10.0
-

Projects

Personal portfolio website. | <https://harishajasthi.github.io/Personal-portfolio/> | May 2024 -May 2024

- Built a personal portfolio website that showcased professional achievements and projects; utilized responsive design techniques to ensure compatibility across devices.
 - Created the website using **HTML**, **CSS**, and **JavaScript**, implementing modern web development practices.
 - Uploaded In **Github** for Deployment using GIT commands.
-

Achievements

- Used low-code/no-code platforms to create and launch several apps, saving 30% of the development time over traditional coding techniques.
 - Created an internal product with an intuitive user interface that increased user engagement by 50% and greatly improved teamwork.
-

Certifications

Machine Learning Course with Python. August 2024

- Acquired expertise in Python programming for applications using machine learning.
- Created models with the use of techniques like decision trees and linear regression.
